

Testing Protocol

Testing Guidelines:

1. Zoom meeting invitations are sent to the participants and team members.
2. The Google Survey form is forwarded to the participants.
3. At Least 3 members from team 9 must be present during the meeting to assist and evaluate the participants.
4. The participants must first share their screen, turn the camera on and fill the first section of the survey.
5. Based on the order in which programming languages are chosen by the participants, they are directed to the respective online ide platform.
6. The participants are provided with verified bug version of the code in the respective language.
7. The participant is monitored during the session and data is collected:
 - a. Time taken to identify the first bug in each language.
 - b. Number of bugs identified in each language.
 - c. Number of code snippets the participant was able to solve.
 - d. Number of hints requested by the participant.
8. The participant is asked to complete the rest of the survey and provide feedback.

Essential Information:

1. Participant in the Team 9:
